The evangelicals are crypto Jews and aren't nearly as large of a populace as the mega church Hollywood productions want people to believe.

Jews dictate 100% of America's domestic and foreign policy and where/how damn near ALL our tax dollars are spent rn.

Meanwhile, only 20% of Jews even voted for Trump. That means we have to destroy America, pay for "Jew security", watch Jews get away with murder and pedophilia (and everything else) and pass unconstitutional laws to impose on US, while WE build (and pay for) "Super Israel" for them on the backs of Palestinian and White genocides, all because we're worried about pleasing 1.5-1.6 MILLION PEOPLE IN THIS COUNTRY who DON'T EVEN CONSIDER THEMSELVES AMERICANS?

Nah, fuck all that, Grace. Absolutely not.
